PROFILE

Strong foundation in **Python, SQL, HTML, CSS, C++, JavaScript, Excel and Power BI** with hands-on experience through academic and personal projects. Skilled in programming, web development, database management, data visualization and problem-solving, with a commitment to continuous learning and professional growth.

EDUCATION

B.Tech in Computer Science and Engineering

2023 | Greater Noida

Galgotias College of Engineering and Technology

Affiliated with Dr. A.P.J. Abdul Kalam Technical University

Senior Secondary (Class XII), Delhi Public School Ghaziabad Vasundhara

SKILLS

Technical Skills

- Programming Languages: Python, C++, JavaScript
- Web Technologies: HTML, CSS
- Databases: SQL, MySQL, Microsoft SQL Server
- Data & Analytics Tools: Microsoft Excel, Power BI
- Developer Tools: Git, GitHub, Streamlit
- Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Data Cleaning, Data Visualization, Dashboard Development

Soft Skills

- Problem-Solving
- Analytical Thinking
- Attention to Detail
- Team Collaboration
- Communication
- Continuous Learning

PROJECTS

Bank Management System | Python, HTML, CSS

- Developed a banking application to manage customer accounts, including account creation, deposits, withdrawals, account details, and account deletion.
- Implemented Object-Oriented Programming (OOP) concepts and designed a clean, user-friendly interface using HTML and CSS integrated with the Python backend.
- Designed the system with input validation and structured data management to ensure efficient and reliable banking operations.

Pizza Sales Analysis | SQL

- Performed sales analysis on pizza orders to determine best-selling products, peak order timings, and revenue contribution.
- Created complex SQL queries to analyze customer purchasing patterns and business KPIs.

AI Resume Scanner | Python, Streamlit

- Developed an AI-powered application to analyze resumes and compare them with job descriptions.
- Implemented text extraction and keyword matching techniques to identify missing skills and calculate resume-job similarity scores.
- Built an interactive user interface using Streamlit for resume upload and instant feedback generation.

CERTIFICATES

Deloitte Australia Data Analytics Job Simulation (Forage)

Built Tableau dashboards and used Excel to analyze and classify business data.

Completed Value Added Course in Python

Programming – Covered basics of programming, data handling, and problem solving

Completed IBM SQL and Relational Databases 101 –

Learned relational database concepts, SQL queries, filtering, sorting, joins, and database design.

Completed SQL –

Learned SQL fundamentals, database querying, joins, and aggregate functions.

Completed 30 Days Python Micro Course

Learned Python fundamentals, data structures, functions, OOP, and problem-solving.

Completed Power Query in Excel Basics –

Covered data cleaning and transformation techniques using Power Query.
